

RUST-B-GONE

One-Step Rust Remover

RUST-B-GONE Rust Remover is great for removing rust, oxides and heat scale on steel and aluminum. Built-in cleaning agents also provide excellent cleaning of dirt and oils. RUST-B-GONE is completely safe and environmentally friendly when used according to directions.

DIRECTIONS

Remove heavy grease, oil, wax, and loose rust, blistered paint and scale on metal surface to be treated. Apply RUST-B-GONE with sprayer, foam roller or rag on larger parts. Smaller parts can be dipped in RUST-B-GONE. Keep the surface being treated wet with RUST-B-GONE until rust disappears. Five to ten minutes for light surface rust. Heavier rust may need 30 minutes to over an hour of exposure. Sanding with waterproof abrasive pad will speed process, and insure uniform treatment. Rinse with water after rust is completely dissolved. Dry immediately with towel or compressed air. RUST-B-GONE is re-useable. It may be diluted using up to four parts distilled water to one part RUST-B-GONE for immersing larger parts. Keep covered when not in use. Do not allow to freeze. Do not store in metal container. RUST-B-GONE should be removed from chrome plated or painted surfaces with water as soon as possible to prevent discoloration.

WARNING:

RUST-B-GONE is an acidic product. In case of eye contact, flush eyes with water for at least 15 minutes and seek medical attention. Avoid excessive contact with skin. When using RUST-B-GONE wear goggles and latex or other type of impermeable gloves. If taken internally, consult a physician immediately. Keep away from children and pets. Dispose of properly. Dilute unused portion with 10 parts water to one part product before pouring into sanitary drain.
